## **PB3410 PowerBroom™**

A worker wearing a high-visibility vest, safety glasses, and gloves is operating the Shindaiwa PB3410 PowerBroom on a concrete surface. The machine is a blue and black handheld power tool with a long shaft and a large, dark, rectangular cleaning head. The worker is walking forward, pushing the machine against the ground. The background shows a concrete sidewalk and a gravel area.

**With a  
PowerBroom™,  
cleanup is a  
snap on any  
surface or  
material. This  
unique machine  
permits one  
person to  
accomplish  
tasks that once  
took crews  
hours to  
complete using  
conventional  
tools.**

# PB3410 PowerBroom™

Nothing compares to this revolutionary hand powered tool. "Let the weight of the PowerBroom work for you." There's no need to pick it up between strokes like a push broom. With the touch of throttle, let it move back and forth and just guide it.

### 12-Fin Rubber Paddles 99909-33027

For sweeping anything from grass clippings to snow and gravel. The 12-fin rubber drum avoids damage to swept surfaces.

**Sweeping swath:** 23 in. (584 mm)

### Aggressive Nylon Brush 80712

This brush is almost as aggressive as a crimped wire brush, at an economical price. Unlike the crimped wire brush, this one also cleans cracks and crevices in pavement.

**Sweeping swath:** 11 in. (279 mm)

### Nylon Brush 99909-11127

For lighter-duty aggressive cleanup of heavy, loose dirt. Useful in flat-surface work, spreading liquids, and cleaning walkways and bike paths.

**Sweeping swath:** 20.2 in. (513 mm)

### String Trimmer Attachment PBK27

Everything needed to turn a PowerBroom™ into a trimmer, including gearcase and debris shield. Comes standard with a trimmer gearcase.

### Cultivator 80275

Turns soil for gardens, planting beds, and highway medians. Comes with debris shield pictured.

### Silicon Carbide Impregnated Brush 80298

A medium-aggressive abrasive brush that also removes moss and dry mud, but not as effective on dust and fines. This brush has the lowest kickback in use.

**Sweeping swath:** 15 in. (381 mm)

### Crimped Wire Brush 80297

Our most aggressive brush for the most demanding applications. It scours moss, dry mud, and loose paint and is useful for descaling.

**Sweeping swath:** 11 in. (279 mm)

### Mixed Nylon/Wire Brush 80299

This medium-aggressive brush works for removing moss, dry mud, dust, and fines as well as cleaning crevices and cracks in pavement.

**Sweeping swath:** 11 in. (279 mm)

### PowerBroom™ Debris Shield 99909-33021

Reduces flying debris when a large quantity of material, especially water, is forced over the sweeper drum.

Shindaiwa's patented C4 Technology® delivers the best of both 2-cycle and 4-cycle engines. Stronger. Smoother. Quieter.

- Incredible torque under load.
- Quick throttle response.
- No oil sump. No dipstick.
- Uses 50:1 mixed fuel.
- Excellent fuel economy.
- Meets stringent EPA and California exhaust emission regulations.

## Specifications

	<b>PB3410</b>
Displacement	<b>2.1 cu in (34 cc)</b>
Output	<b>1.4 hp (1.0 kW)</b>
Dry Weight	<b>22.2 lbs (10.1 kg)</b>
Carburetor	<b>Walbro Barrel-valve</b>
Fuel Capacity	<b>23.7 oz (700 ml)</b>
Fuel, 50:1 Ratio	<b>Fuel/Mixing Oil</b>

## Features

- Walbro WYL diaphragm-type carburetor with primer.
- Ergonomically designed offset handle improves operator comfort and reduces fatigue.
- Full anti-vibration system for reduced operator fatigue.
- Engine features chrome plated cylinder and 2-ring piston for extended service life.
